Profile

Flutter Developer with 2+ years of experience building reliable cross-platform apps. Skilled in Flutter, Dart, REST APIs, and Firebase, with proven experience managing Play Store and App Store releases for stable, crash-free apps.

Professional Experience

SaraTech Ltd. 🔗

Oct 2025 – Present Dhaka, Bangladesh	<i>Flutter Developer (Mid-Level)</i> • Lead end-to-end development of high-performance apps with seamless REST API and Firebase integration. • Architected scalable codebases using Layered-First Architecture and Repository Patterns to enhance maintainability. • Optimized UI performance by implementing Isolate Pools for heavy background tasks and complex data processing. • Translated Figma prototypes into pixel-perfect, responsive UIs adhering to modern aesthetic standards. • Managed full release lifecycles, overseeing A/B testing and deployments on Google Play and Apple App Store
Mar 2024 – Oct 2025	<i>Junior Flutter Developer</i> • Developed core features for cross-platform apps, ensuring stable Firebase and REST API integrations. • Refactored legacy code under senior guidance to align with Clean Architecture and Repository Patterns. • Converted complex Figma designs into pixel-perfect, responsive UIs across all device screen sizes.

Skills

Core Competencies

Dart, Flutter, GetX, Provider, Asynchronous Programming (**Isolates**, **Thread Pooling**, **Streams**), Dependency Injection, Repository Pattern, Clean Architecture

Interpersonal Skills

Team Collaboration, Problem-Solving, Communication, Adaptability

Tools & Backends

Firebase, Hive, Sqflite, GitHub, Android Studio, Xcode, Postman, DevTools

Services & Integrations

REST API, WebSockets, Google AdMob, Meta SDK, Push Notifications, WorkManager, Google Maps API, Firebase Cloud Messaging, Crashlytics, In-App Purchases, Google Cloud Pub/Sub

Projects

Jul 2025 – Dec 2025

CamScanify 🔗

Flutter, Dart, REST API, WorkManager, Sqflite, GetX, Google AdMob, Crashlytics
CamScanify | PDF Management & Cloud Sync

- Engineered a high-performance PDF engine with an offline-first architecture, leveraging **sqflite** for local caching to boost file access speeds by **40%**.
- Optimized background data persistence using **WorkManager**, ensuring reliable cloud synchronization and document integrity even when the app is closed.
- Integrated **Google AdMob** with strategic placements to drive revenue while maintaining a modern, aesthetic UI.
- Maintained a **99.9% crash-free rate** across iOS and Android by proactively monitoring app health and performance via **Firebase Crashlytics**.

Mar 2024 – Feb 2025	GINZA XIAOMA - Flutter, Dart, REST API, WebSockets, Firebase, GetX, Crashlytics - Ginza Xiaoma Luxury Resale Marketplace (Japan & HK) - Developed a high-end cross-platform marketplace for luxury assets, featuring a premium UI and seamless multi-region navigation for Japan and Hong Kong. - Engineered a real-time Chat & Consignment module with secure product-sharing capabilities, driving a 30% increase in user retention. - Integrated global inventory and authentication APIs, ensuring a secure and reliable user experience for high-ticket luxury transactions. - Managed end-to-end deployment and maintenance on the Apple App Store and Google Play Store with a focus on platform stability.
Jan 2025 – Aug 2025	TrackaTail - Flutter, Dart, Firebase, REST API, GetX, Crashlytics, Meta SDK - TrackaTail Comprehensive Pet Care Ecosystem - Developed a full-featured pet management platform with modules for health tracking, task scheduling, and automated reminders. - Integrated a community engagement engine resulting in a 35% increase in user retention. - Achieved 99.9% crash-free sessions by implementing robust error handling and proactive monitoring with Firebase Crashlytics. - Architected a secure payment pipeline using Google Cloud Pub/Sub for server-side receipt validation, ensuring financial integrity for in-app purchases.
Mar 2024 – Feb 2026	TailorHive - Flutter, Dart, Firebase, GetX, Crashlytics - TailorHive Hyper-Local Marketplace - Developed a location-centric marketplace connecting users with verified tailors using Google Maps API and Geolocator. - Engineered an interactive Book Design feature, allowing users to curate and customize style catalogs, which contributed to a 25% increase in conversion rates. - Implemented a high-performance UI with local caching to ensure smooth navigation and fast data retrieval across iOS and Android.
Jan 2026 – Present	Dhara (Legal-Tech AI) - Flutter, Dart, GetX, Layered Architecture, Voice SDK - Architected a scalable foundation using Layered Architecture and GetX to manage complex legal workflows with strict separation of concerns. - Engineered a voice recording module with real-time waveform visualization and asynchronous processing for seamless, high-fidelity documentation. - Developed a modern Material UI featuring clean typography and streamlined navigation, ensuring a jank-free experience for professional users.

Education

Jan 2020 – Mar 2024 Dhaka, Bangladesh	BSc in Computer Science & Engineering Bangladesh University of Business and Technology
--	--

Courses

Mar 2023 – Sep 2023 Dhaka, Bangladesh	App Development with Flutter Ostad
--	--
